Raipur, Chhattisgarh, India

EDUCATION

Christian College of Engineering and Technology

Bhilai, Chhattisgarh

Bachelor of Technology in Computer Science Engineering

Sep 2022 – May 2026

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering
- CGPA: 8.5/10 (if applicable - replace with actual GPA)

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, PHP, SQL, HTML, CSS

Web Development: React, Node.js, Express.js, RESTful APIs, Responsive Design

Database Technologies: MySQL, MongoDB, PostgreSQL

Tools & Technologies: Git, GitHub, VS Code, Postman, Linux, Docker

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving, Agile Development

PROJECTS

E-Commerce Web Application | *React, Node.js, MongoDB, Express.js*

- Developed a full-stack e-commerce platform with user authentication, product catalog, shopping cart, and payment integration using Stripe API
- Implemented RESTful APIs with JWT authentication, achieving 40% faster load times through optimized database queries
- Built responsive UI components using React and modern CSS, ensuring cross-browser compatibility and mobile responsiveness
- Deployed application on cloud platform with CI/CD pipeline, serving 500+ concurrent users

AI-Powered Chatbot | *Python, TensorFlow, Natural Language Processing*

- Designed and trained an NLP-based chatbot using TensorFlow and NLTK for customer service automation
- Achieved 85% accuracy in intent classification through data preprocessing and model optimization
- Integrated chatbot with web interface using Flask, reducing customer response time by 60%

Task Management System | *JavaScript, PHP, MySQL, HTML/CSS*

- Built a collaborative task management application with real-time updates and role-based access control
- Implemented CRUD operations with MySQL database, supporting 100+ simultaneous users
- Designed intuitive UI/UX with drag-and-drop functionality for task organization and priority management

EXPERIENCE

Software Development Intern

Jun 2024 – Aug 2024

Tech Startup / Company Name

Remote

- Developed and maintained web applications using JavaScript, React, and Node.js, contributing to 3 major feature releases
- Collaborated with cross-functional teams to implement responsive UI components, improving user engagement by 25%
- Debugged and optimized existing codebase, reducing page load time by 30% through code refactoring
- Participated in Agile sprint planning, daily standups, and code reviews, ensuring high-quality deliverables

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Artificial Intelligence Certification, Web Development Certification

Achievements: Solved 200+ problems on LeetCode and HackerRank across Data Structures and Algorithms

: Ranked in Top 10% in college coding competitions and hackathons

: Active contributor to open-source projects on GitHub with 50+ contributions
